THE FLASHLIGHT

Anything that you can imagine, and question has an answer in the Word of God.

The Word of God is like a flashlight in a dark room. It illuminates and brings to light things you have never known! The only way to get light in the dark room is to turn on the light.

In reading God's word, you are turning on the light, and you will be enlightened each time you do it.

**The Bible—*Read it to know, then practice it to grow.*** It is the best lamp you will ever need to light your path.

We want to challenge you to read at least one chapter a day and use a journal to write down what God impresses upon you from His Word. Unlike physical bread that grows stale, the word of God never is stale. There is always something fresh to receive from it.

Take the challenge then let us know what God is showing you.
