AUTO CORRECT

If you have a cell phone you most likely have times when you send a text message or write a message by email that the phone “auto corrects” what you have written. Sometimes it is good, but most of the time it changes the entire meaning of your message. It can be an annoyance to say the least.

When it comes to life, it doesn't come with an “auto correct” button. We either live with our mistakes and continue to make the same ones over and over, or we learn from them and repent of the mistakes (sin) that so often keep us in bondage.

God never intended for us to be puppets. He allows us the freedom of choice. Sometimes we choose the wrong path, and it leads us into a mess. Then what? We must “manually” correct those wrong choices. We make the choice though, because change doesn't come to us by a button that we push.

The word of God is our “resource manual” to determine what is right or wrong. Look at it like a dictionary. You look up the spelling of a word, but with the knowledge of God, you “look it up” in your bible. The Bible is our source for correct living, for determination of what is right and what is wrong, and for daily victorious living. It teaches us how to treat others, and how to pray. Other tools like a concordance to find the right word and its meaning are helpful, but they all go back to the source, the bible.

Just like auto-correct on my cell phone uses a dictionary or other means to correct what I type wrong or that it thinks I type wrong (😊) you can never go wrong with the Bible. It is God's word for life. The scripture says in Proverbs 119:89, ***“Forever, O Lord, thy word is settled in heaven.”*** Unlike my phone's auto correct, it cannot make a mistake. You can take God “at his word” for that.
