ARE WE LISTENING YET?

In January of this year the Lord said, "preparation and separation." Little did any of us know that there was going to be a lockdown, a plague, church closings and chaos. I wonder if we would have prepared for it if we had?

For the past several years God has been speaking to myself and Russell to prepare for hard days ahead. We purchased a water filter system that does not take electricity. We purchased canned goods and other things and began to stock up. Having been through several hurricanes we know what it is like to have shelves bare for basic essentials.

Early this year you could not buy toilet paper and other necessary items. Many people got angry when they could not get the things they needed. We have been telling people to prepare for these days for a long time. An extra can of beans, an extra bottle of water. An extra this and that. Extra medical supplies and more. Some listened and others did not.

The Lord has been showing us that chaos is going to mount in our country. Things ARE NOT GOING TO GET BETTER! We believe there will be a second wave of some type of plague, probably much worse than Covid19. Judgement is here because of the sin of our country. Innocent babies' lives have brought it to this. Nothing is going to change unless the court system and the governors of states that have allowed this repent. It has not happened yet.

We have a political party that stands against everything that God stands for. Are you part of that party? Then, you will be judged with that party. I suggest that you repent before it is too late.

Earlier this year God showed me the only way that things will change. First godly sorrow has to come over personal and national sin. Then repentance for the sin, which means turning away from it. Then will come mercy, and finally restoration. God wants us to repent! God wants to give out mercy, but it will not come without repentance. God is allowing all that is happening to bring our nation to repentance. He does not hate America. He hates sin.

I see chaos, destruction, and death on the horizon. Is your life and house in order with God? Have you prepared to live without electricity? Are you prepared for a long-term isolation without food? If not, do it now before it is too late. We can live without electricity, but we cannot live without water and food.

Get prepared my friends. God is bringing down the gavel, and it will happen soon. Are we listening yet?
