PROPHETIC WARNINGS

Throughout the Old and New Testament God sent prophets to warn his people of what was coming and to repent and prepare. Ezekiel was a watchman and was told by God that if he didn't warn the people then their blood would be on his hands. (Ezekiel 33:6)

God is still using prophets today. Many are hearing from the Lord that there is something coming that is going to bring chaos. Some have seen war coming. Some have seen famine coming. Some have seen destruction and even entire countries wiped out through destruction.

The question is, what do we do with these warnings? Over the years I have heard many say that God wouldn't harm America since we sent so many missionaries out to proclaim the gospel. Yes, that was true. But our country is much different now than then.

We have allowed pagan shrines to be built in cities where demonic entities are worshipped. We have brought the arch of Ba'al into New York. Ba'al was a demon entity that promoted the sacrifice of infants. We have brought sexual perversion from the White House to the church house, and much of the church has winked at it. Many say we shouldn't judge sin and that is true of the unbeliever, but we are to judge sin in the church.

I could go on and on about our country, but the truth of the matter is that our country is under judgment. It will start in the church where unrighteous leadership will be taken out. God wants his pulpits pure and not perverted.

We are also seeing food supplies destroyed, and many stores do not have what used to be available. There are floods, and there are fires. Watch, famine is coming and not just to the third world countries.

True prophets are warning that these things are coming. Those that are saying that things will return to normal are not speaking God's words. I believe there will be a remnant that God will use, but persecution is going to come for those that make a stand for justice and truth.

Are you listening to the voice of God through his prophets? I pray you are. I have been constantly in a state of weeping on and off knowing what is coming. God has spoken that we need to spend time with him to hear what he is saying.

Don't be like those in the days of Noah (Matthew 24 says the end times will be like those days) and not be able to enter the safety of God's ark. Be prepared. Repent of your sin, and listen, listen, listen to what The Holy Spirit is truly saying. Don't take the warnings lightly my friends. Things are going to go downhill swiftly when they start.
