STEP INTO THE WATER

The Hebrew children had left Egypt and were travelling to the Promised Land. They came to the Red Sea. With six million people needing to cross this sea there was a problem. How would they get to their destination? To make matters worse, the enemy was closing in on them from behind. What would they do now?

You see, they were looking at their situation as being an impossibility. They could only see the problems. They in their own minds felt they were trapped between “a rock and a hard place.” They didn’t know that God already had a plan before they even got to the Red Sea. In order for the plan to work though, there had to be an act of faith. Someone had to “step into the water” and show God that they trusted Him. Of course, Moses did that, and the waters parted. They went across into the wilderness on dry land. Meanwhile the God caused their enemy to be defeated by being drowned in the Sea. The very Sea that brought them deliverance destroyed their enemies.

Many times, we are faced with impossible situations where it looks like there is no way out. Doors have been shut and no door has opened. This is when we must trust that God has a plan and listen to Him for the next step. Often it takes great faith to move out of a situation with no money or any way to go forward, but when God says move, we must move. The provision for the children of Jacob only came when Moses stepped into the water.

What is it that God is asking you to do? Do you trust Him enough to take you to the next stage of your life? When you determine to go forward no matter the cost, God will make a way for you just like he did the Hebrew children. So, step into the water!
