WHAT IS TRUTH?

In this season we are seeing so many voices speaking. One voice would say there will be great famine and greater plagues. One voice says there will be a third great awakening. One voice says we can't speak without being "politically correct." Another voice is saying that the church is going downhill quickly.

So, what is the truth? I would have to say that all of it is. We are in a season that those that are on fire for Christ are marching to a beat of the drum of heaven. Nothing is deterring them from speaking what Holy Spirit is saying. While they are doing this, and bringing in the end time harvest, there are those just as they were in Jesus' day trying to stop this move of God. The ones with religious attitudes saying things like, "We never did it like this before, so it can't be God." Then there are those that condemn anyone for preaching against sin because it will cause people to feel judged. The church of the remnant is strong while the church of the "world" is sliding into eternity without Christ.

We know truth by knowing the Word of God. Jesus said, ***"I am the way, the truth, and the life..."*** The more we fellowship with Jesus and read His word, the more truth we will learn. Yes, these are perilous times, but persecution brings revival to those that stand for truth. Don't let the negativity of the religious people stop you, my friends. Preach the truth for the truth will set people free!

I welcome a third great awakening, but the price to pay may be our very lives like it was with the early church. I know it will come with great persecution from religious and political leaders. We must be prepared to be criticized, ostracized, and even physically attacked to bring in the harvest. It is not a season for wimps. It is a season for those that are strong in the Lord and the power of his might. Onward Christian Soldiers – marching as to war!
