PREPARE

I awakened with the words Prepare from the Holy spirit. I then saw oriental faces and sought the Lord. There is a real enemy my friends, and that enemy is not the people. It is the spirit leading the people. I sense the enemy has a plan to come against America from Asia. We can stay that plan through prayer.

God would not have us ignorant for many nations are being led by the spirit of Antichrist, but within those nations there is also a remnant that seek after the Lord with their whole heart. We must pray for them. We must intercede on their behalf for wisdom, safety, and direction in this hour.

Prepare also means to spend time alone in the secret place where it is a one on one time with your Creator. This is the place you will find renewal and strength. This is where you will gain wisdom for the hour and days at hand. This is where you will come away refreshed to tackle the battles of the day. Do not neglect spending this time with God, for if many had been doing this, they would not have been caught off guard this year when we had the pandemic. Yes, there have been those that saw and heard what was coming, but many did not come to that secret place and listen as God would prepare them, and when the pandemic hit they were in fear and totally caught off guard. Many became sick and died because they didn't prepare for this.

Prepare also means to prepare in the natural. As you seek God for you and your situation, He will show you what to prepare. It may mean preparing extra food, water, and things to preserve your life in the days ahead. This is something that we have been doing for a long time. Preparing in the natural will make you ready in the natural areas. Preparing in the spiritual will make you ready in the spiritual areas.

The important thing is to be prepared for whatever may come your way. Don't take this word lightly. If God woke me up and said prepare, then something must be going to happen that takes preparation. Don't put off spending time with Him to learn what it is.
