DECEPTION

How easily can one be deceived? Well, let's look at what 2020 brought. We saw media put out information on a virus that no one knew for sure where it came from. Then the fear of it brought millions across the world into "lockdown." Was there a virus? Yes, but what is it really? Covid has been around for years, but they added the 19 to the end to let us know that it was the 2019 edition of it. It isn't something new my friends.

Then the masks. There has been so much said, mostly in anger, that we should all be wearing masks. Now there are times that a mask is important, but that would be in a limited situation. It has been proven that a mask lowers your oxygen level and causes more problems than good. A friend who owns a restaurant shared with me that they started wearing masks when they were allowed to reopen, but the servers were constantly touching the mask, and that would render them "tainted", so they stopped wearing them. They touched their faces less with the masks off. It is a proven fact that the mask does only limited good. I think the only good a mask has truly done is made people money. I wish I had bought stock in a mask company.

Then there is the vaccine. It has not had time to be tested, and to be honest, a virus mutates, so the vaccine for today will not be good for tomorrow. Furthermore, what is really in the vaccine? Do we really know, or are we deceived about this too? I saw an ad about the vaccine playing on a television in a store that I recently visited. Three former Presidents, known to be very liberal, and globalists, were promoting getting the vaccine so we can "get back to normal." Just seeing those three that are ungodly promote this would make me question why I would take it. And, by the way, I will not take it. Even my doctor told me he wouldn't take it either, because it hasn't been tested enough.

What is this vaccine, and mask, and false news really all about? I sense that it is a prelude to much more indoctrination, that so many have already bought into. Deception. If they can control the world through fear of Covid19, then they can control the world in other ways too.

Have you noticed how many stores do not take cash anymore? Many restaurants will not take anything but a debit/credit card. That sounds like the prelude to a cashless society to me. Deception after deception is what is happening in the world. Deception in an election. Deception from prophetic voices. Deception from the medical field. Deception in the church.

Where does this leave us? I would hope it leads you to the Word of God that will never deceive you. We are in the end times. I believe soon that the Antichrist will come on the scene with a plan so smooth that many will be deceived and will follow him without a second thought. I can only pray that what we do as a ministry wakes you up to see what is really happening. Don't be caught in the web of deception. I had a vision a few years ago about a spider web. If you want to see it, [click here](#). It was given long before 2020 hit. Don't be drawn into that spider web my friends. Wake up and don't be deceived.
