SORRY WRONG NUMBER

I don't think there is a day that goes by that I don't receive a "spam" phone call. Most of them are computer generated. There are many that come up with local numbers, but they have hacked into the "phone system" and use it as a ploy to get information and to steal a person's identity and livelihood. There are some ways to block these calls, but they manage to work around that too.

Have you ever called a friend's number only to find out they have changed it, and the person that answers the call says "sorry, wrong number?" I have, and I am sure you have too. As a young person, you could dial 0 and get a "telephone operator" that helped you get the "information" that you needed. Those days are long gone. For the most part if you want information you find it yourself on the internet.

Did you know that God has a phone number? It is Jeremiah 33:3 where it says, ***"Call unto me, and I will answer thee, and shew thee great and mighty things, which thou knowest not."*** God's call center is never busy, and it is always answered. You don't even have to know the number other than "call out" to Him. You don't have to go through an operator! His call center is better than google search, and better than Siri or Alexa. He provides an "answer" to every call that comes in by directing you to His "book." He doesn't send spam and definitely isn't trying to steal your identity. In fact, He is willing to let you identify with Him! His thoughts can become your thoughts and his ways can become your ways.

It is a good idea to "call" his number often. He will never say, "sorry, wrong number."
