THE SAFEST PLACE TO BE

Over the years I have listened to many conspiracy theories about tsunamis, earthquakes, floods and more to hit our country. There is also a planet coming into our solar system at this time that could bring great havoc and destruction to the world. NASA knows about the planet. There are rumors that we may be at war within six to nine months, and this comes from reliable sources.

There are chemtrails, and there are GMO's added to food. There are plagues and there are jobs that people have taken.

All of these things have led people to be in great fear. They do not realize that fear paralyzes them. Fear is the opposite of faith. We must not let fear control our lives. We must believe that God has a plan.

So, what do we do and where do we go knowing that these things are about to occur or are already happening? Where can we be safe?

The safest place to be is in the center of God's will. When you know the will of God and do it, then you can be sure that God's promises of protection are yours. When we determine to do our own thing and go our own way by not listening to the voice of the Holy Spirit you can be sure that you come out from under God's umbrella of protection and will suffer the consequences.

So, where is the safest place to be? Once again, I will reiterate that the safest place to be is in the center of God's will wherever that may be. Don't be controlled by fear. Be controlled by faith in God that will guide you!
