HARBINGER

A harbinger is a person who goes ahead and makes known the approach of another. It could be a herald, a prophet, or anyone that foreshadows a future event. It could be an omen or a sign.

Yesterday as we were doing our LIVE broadcast for equipping the saints the Holy Spirit dropped a “harbinger” into my spirit. We were talking about abortions and about Baál. This god caused many Israelites to fail. They worshipped Baal instead of Jehovah and they built altars to Baál. One of the worst was Jezebel, who married Ahab, the King of Israel. She brought her false gods into Israel and caused many people to sin. As I was speaking about this, here is what I heard from the Holy Spirit.

“There are many altars of Baal in the United States. They are the abortion clinics where innocent blood is shed.” Immediately I was grieved when I realized that America has succumbed to the spirit of Baál just like Israel did. Since we allowed abortion to be legal in the United States, more than 60 million babies have been murdered. We have allowed the shedding of innocent blood and we are now being judged for it.

No matter how much prayer goes up for America, things will never change until these “altars to Baál” are destroyed. We need to put godly people into our city government, county government, state government, and federal government that will tear down these altars and remove the curse from our land. Nothing will change until that happens

It is sad when people that call themselves Christians think abortion is okay and that it is a woman’s choice. It is sad when preachers do not preach against this sin. It is sad that we have become lukewarm and have not made a stand one way or another.

I do not condemn anyone that has had an abortion. God forgives you when you ask him. This message is not to bring condemnation. It is to cause us to wake up and humble ourselves and pray and seek God’s face like never before. I pray that you will be one that stands for righteousness and will pray this curse we have brought on ourselves will be removed.
