## THE REVELATION GIFTS – WORD OF WISDOM

Another one of the Holy Spirit's "gifts of supernatural understanding" is the "revelation gift" of the word of Wisdom.

In this gift, the Holy Spirit gives instruction to be followed or applied. It might be direction for them to take. It may be something they are to do or not to do. There could even be specific steps or actions they are to take. It could be directions on how to apply something. Again, the minister delivering the word got it supernaturally from Holy spirit, not from their own natural human wisdom.

The key for the person is "obedience" to the word that's given. If they need a miracle, they might be told to do something specific; their miracle comes as soon as they obey the command. An example is found where Jesus (Luke 17:12-19) had ten lepers who needed to be healed. They cried out to Him. He gave them specific instructions to ***"Go show yourselves unto the priests."*** They obeyed and were healed. Had they not obeyed, there would have been no healing. They acted in faith to follow His instructions. Sometimes the word of wisdom gives such precise instructions or steps to follow in order to bring about the result that is best for the person.

I have had this happen in my own ministry. The person had a dilemma to deal with over a period of months and constantly asked for prayer. The person reached a point of decision of what to do or not to do and sought council from Pastors and elders of the Church. They all gave council that the person should proceed with a specific contemplated course of action. The council was biblically sound, but it was based from their human wisdom. Holy Spirit gave me a word for the person to NOT TAKE that course of action. I gave the word and said to be patient because the Lord will work it out for you in His own time to your favor, and the time will not be far off. The person did not follow that word given, rather followed the "counsel of many." It did not work out well. Later, a lawyer told the person that they had made a mistake by taking that course of action. They would have been far better off to have waited just as the Holy Spirit had said. Disobedience brought a bad result. That person now is apparently no longer serving the Lord.

God rewards obedience. Obedience can bring miracles into your life. Father will take care of you if you respond to a Word of Wisdom given.
