DON'T LOSE YOUR FOCUS

With wars in the middle east, including Israel, and wars in the Ukraine, unrest on the streets of America, a president that many hate, and the high cost of living, people seem to be at their "wits end."

The anger among Christians directed at other Christians and ministries has spiraled out of control. Rarely do we see people repent for their actions. They play the blame game of "if they hadn't...I wouldn't have."

People have lost their focus on what is truly important, and that is being about the Father's business.

Jesus' main purpose for coming to Earth was to seek and save those that were lost. That is every Christian's first priority. We are to be disciples of Jesus and witness to those bound in sin and pull the lost out of darkness. Yelling at them does not do that. Loving them to Jesus is the only way.

Let's get our focus back on God's word and God's love for the lost.
