SIGNS OF THE TIMES

I worked for an educational company for about 25 years. We sold encyclopedias and other products to help children with school and to increase their understanding and knowledge of history and every other facet of learning. Everything we sold was in "hard copy."

In the 1970's through the early 1990's, we learned that knowledge was doubling at the rate of every 3-5 years. We thought that was phenomenal considering all that had been learned from the concept of time from the garden of Eden until then. In 1990 when the internet was really beginning to take off, the company I worked for decided not to go "online" with their product because they thought nothing could replace sitting and reading a book. How wrong they were. Other educational product companies bought the concept and were immediately "online" with their product.

In 1900 knowledge doubled approximately every 100 years. By 1945 the rate was every 25 years. With the digital age it is safe to say now that knowledge is doubling every 12 hours. This is incredible that in only 120 plus years it has rapidly increased. In less than 40 years computers have gone from "dial up" to being on a watch or cell phone. The internet has made it so easy to get information, and each of us are part of that information highway. Your medical records are all on the internet. Facial recognition has become the way to do online banking and more.

In the book of Daniel, the angel Gabriel tells Daniel some things about the end times. He gives him instructions about much of what he has seen, and tells him in Daniel 12:4, ***"But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased."***

Most children know more about computers than adults because they are taught very young in school how to use them. When the lockdown came, they were already familiar with learning from a "screen." How easily it was to put them in school without leaving their homes. They had been programmed to learn this way.

Cell phones have apps that enable you to read the bible, solve problems without a calculator and find answers to almost anything you ask. Everything you want to learn about is on the information highway.

A few years ago, I had a vision. You can watch it here. ([click here](#)) It was how a spider web was drawing people into it, then their cars, homes and then the entire world. There are very few homes that don't have "smart TV's" which remember what you watch and make suggestions. There are refrigerators and other appliances that can be controlled through "Alexa." Then there is Siri on apple products. You ask her a question and almost instantly she gives you an answer.

There is no doubt in my mind that we are in the “time of the end.” This and much more are signs of the times. We must be prepared for what Daniel saw in his visions. We must be prepared for what happens in Revelation. Many think they will be out of here before dreadful things happen, but what if we aren’t? What if Satan has set us up to think that? How many peoples’ faith will fail when countries are destroyed and 2/3rds of the world’s population dies as it says in Revelation?

It isn’t coming my friends. It is here. I would advise you to have your house in order. I would say prepare for hard days and food shortages. I would say do not fear. Walk in faith that God will see you through. Don’t take this message lightly. God does nothing that he doesn’t reveal it first to his true prophets. (Amos 3:7.) We can be certain that God has used prophets to send warning after warnings. The Lord said that his return would be like it was in the days of Noah. Only eight people were saved. The rest perished. Why Noah? Of all those that lived during his time, he alone was found righteous. God had to preserve the seed that would bring our savior, and it came through Noah and his sons.

The signs of the times are here, I pray you will warn others to be prepared for what’s ahead.
