LET THE REMNANT ARISE

No matter what the conditions were for Israel, there was always a remnant. Daniel, Jeremiah, Isaiah, and others were used by God in some of the worst conditions. God raised up a Moses when the Hebrews were slaves in Egypt.

We are in days that seem very hopeless to many, but there is hope. In spite of what we see with our natural eye, there is hope. Those that are spending time in the presence of God in the secret place are being raised up in this hour. They are the remnant. They will do great exploits that they never thought were possible.

The spirit of Daniel will come upon them with a boldness that they never had. They will go into darkness and bring light. These are the remnant of the end times my friends. These people are you and me. We have been chosen in the furnace of affliction. We have endured hardships. We have sacrificed and given when there was nothing left to give, but we haven't given up. We have pressed through, and we have come through the fire stronger than ever.

We have learned that we are more than conquerors through Jesus Christ. This is our hour to shine. So, rise up remnant and take what you have learned to those that haven't heard it. God will be with you! Great will be your reward!
