DEDICATED FROM THE WOMB – LESSON 1

INTRODUCTION

God has pre-ordained a destiny for each person. It is written in the books in heaven before you are born or conceived. God said in Jeremiah 29:11, ***“For I know the thoughts that I think toward you...to give you an expected end.”*** He also said in Jeremiah 1:5, ***“Before I formed thee in the belly (womb) I knew thee...I sanctified (set apart) thee...”***

None of us are an accident in God’s eyes. Some may be claimed as an “accident” in a person’s reasoning, but we were all pre-ordained to be born according to God’s plan.

A person might be especially chosen, dedicated, and ordained by God for a special purpose. What we often fail to realize is that a mother can also dedicate a child in her womb for a special purpose also. That is the right of a mother, and it is best done early in the womb long before birth. There have been many mothers over the centuries that have dedicated their pre-born child to God and to His service.

Unfortunately, the mother also has the authority to dedicate the child to evil. I read of a true account where a mother who was into witchcraft dedicated the babe in her womb to Satan. The baby girl was born and grew into adulthood surrounded by demonic spirits. The young adult woman was formally dedicated at an altar of Satan who took her as a bride. Satan would have his way with her just as a man would. She later got saved through Jesus and was delivered and set free and lived to testify of it. Yes, Satan has several human brides. I personally know of a Christian couple in deliverance ministry who delivered another “bride of Satan.” Recovery was a lengthy process as the woman lived with this couple for a while until she was strong enough spiritually in the Lord to make a new life for herself.

However, in this series we are going to focus on examples of those called out of the womb for service unto God. We will look at such characters as found in the Bible. We all have a destiny, but most people do not discover it because they do not seek the Lord for it.

I recall a person who had a visitation in heaven. An angel showed him a vast room with many books in it. When he asked about the books, the angel told him they contained the name and planned destiny of every person born on earth, a destiny set forth by God, but most of them will never fulfill that destiny. They have a free will to choose their own path.

Let each one of us seek God’s revelation as to what we should do in life. Pray that we choose to submit our own will to His plan for us. Study the Word, pray, seek His face, and ask Holy Spirit. The Holy Spirit will speak to you from God’s Word and will guide you into your purpose in this life.
