Testimonials

JB DEWAR
FUELING EXCELLENCE SINCE 1933

“The SLOCBE is extremely helpful and instrumental in business growth and development. The Exchange connects contractors with suppliers, facilitating the building and enhancement of relationships as well as increasing transparency and knowledge about upcoming projects. It’s great to be so connected to your industry peers and have the ability to establish those long lasting, mutually beneficial working relationships. There have been times we’ve needed some assistance from SLOCBE and were pleased that they are willing to field a phone call or email in order to support us.

Even when our questions required some research on SLOCBE’s behalf, they were able to deliver answers in a timely manner and with a friendly attitude.”
