

Get low cost Insulin and diabetic supplies.

With the AARP® Medicare Advantage SecureHorizons® Focus (HMO) plan, you may be able to save on your drug costs by using one of our thousands of network pharmacies.

Plan benefits may include:

- Insulin copays for \$35 or less for a 1-month supply
- Coverage for diabetes monitoring supplies, such as blood glucose monitors, testing strips, and more as well as diabetes self-management training
- Predictable costs for doctor visits like primary care, specialist and more with a yearly out-of pocket maximum on medical costs
- \$0 copay for virtual visits to see a provider from the comfort and safety of home 24/7
- Personalized programs, resources and care coordination to help manage your health

It's time to take advantage.

Healthcare**

Insulin, when used in a pump, is covered under the Part B Benefit instead of Part D. You will pay a maximum of \$35 for a 1-month supply of Part D select insulin drugs during the deductible, Initial Coverage and Coverage Gap or "Donut Hole" stages of your benefit. You will pay 5% of the cost of your insulin in the Catastrophic Coverage stage. This cost-sharing only applies to members who do not qualify for a program that helps pay for your drugs ("Extra Help"). Virtual visits may require video-enabled smartphone or other device. Not for use in emergencies. Benefits, features and/or devices vary by plan/area. Limitations and exclusions apply. Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract. Enrollment in the plan depends on the plan's contract renewal with Medicare. © 2021 United HealthCare Services, Inc. All Rights Reserved.
