MINI COMBINATION CLEANER

- ✓ POWERFUL.
- ✓ DEPENDABLE.
- ✓ NO CDL NEEDED.

1. Fully Opening Hydraulic Rear Door

A fully hydraulic opening and locking rear door is standard with our combos. There is no need to fight manual locks.

2. (Optional) Hydro Excavation Package

Includes a 50 ft. or longer retractable hose reel, 3/4" stainless steel lances and the ability to excavate at up to 3,000 PSI.

3. Dual Cyclone Separators

Dual cyclone separators help prevent carry-over to the stainless steel final filter.

4. Triplex Giant Water Pump

This reliable triplex water pump can be 40 or 50 GPM at 3,000 PSI on 3/4" hose.

5. Control Panel

Emergency shutoff lanyard, electric throttle, boom controls & water pump/blower engage

6. Articulating Hose Reel

Our hose reel is assembled with 3/8" hardened steel and features 180 degree hydraulic-driven articulation.

7. Telescopic Boom

6" telescoping boom that rotates 180 degrees giving you ultimate maneuverability.

8. (2) 300-Gallon Water Tanks

(Two) aluminum water tanks, that interconnect to give you 600 gallons of total water.

9. Positive Displacement Blower Package

Each three-yard combo is equipped with a 3,000 CFM P.D. blower.

10. 3-Yard Debris Tank

This unit features a three-yard debris tank with a flush out bar to help with cleanup. The debris tank can also be upgraded to **stainless steel** upgrade.
