WET/DRY

A NAME YOU TRUST. A NEW PRODUCT YOU'LL LOVE.

The GapVax HV33 HydroVax is the newest hydro excavator to join the GapVax HV Series. Built upon the GapVax's proven wet / dry filtration system, this unit offers a new 4000 CFM high vac blower for quieter operation, smaller water tank and debris body, with a new HX boom design, and has been redesigned for optimum weight distribution.
