If you're not sure about Event Type, it's probably "Charity Event (Non-Sports) or "Lecture, Meeting, Workshop"

You won't be able to click next until you open the list of Excluded Activities, scroll to the bottom and click close. Then you'll be able to click next.

Choose the date of your event. If it is multiple, click the first day and the final day. If it is weekly, or occurs repeatedly, just click the first date as a one off, and then you'll be able to repeat the insurance for each individual event afterwards.
