## Autonomous patroller robot for securing outdoor sites

### SURVEY

Perimeter patrols  
Interior security patrols  
Doubt clearing  
Random stakeouts

### DETECT

Intrusions detection  
Anomalies detection

### DETER

Visual and sound presence,  
autonomous or remote  
controlled

### ALERT

Remote interpellation with  
video and audio  
Alarms pull up to the  
guardhouse

Sensitive sites

Abandoned sites

Industrial plants

## Suitable for any type of site

Logistic warehouses

Airports

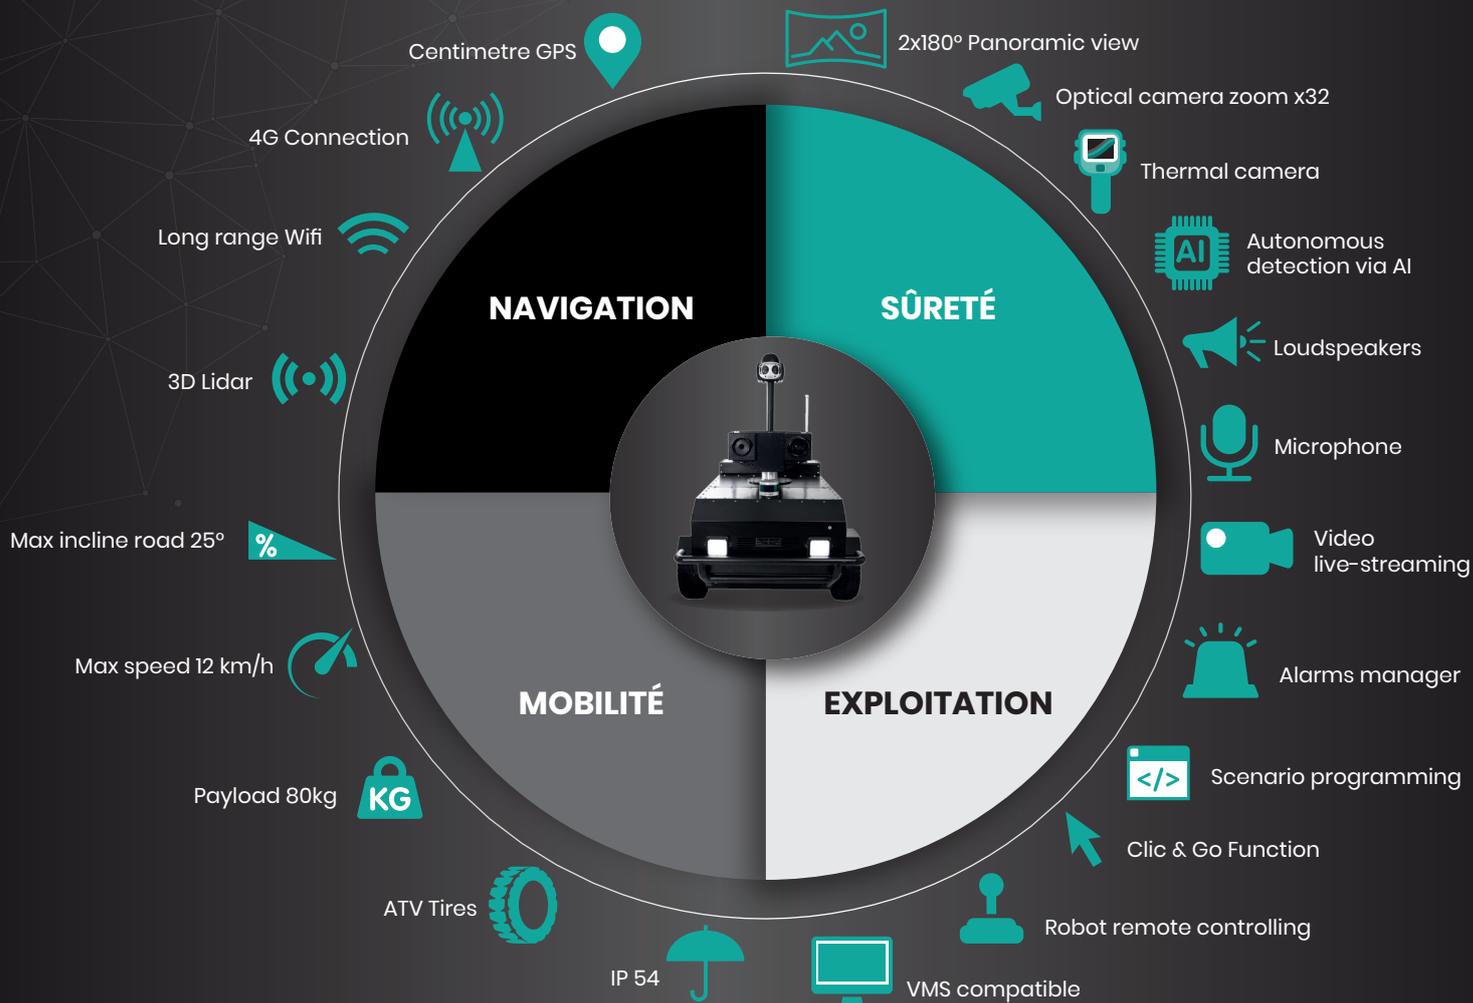

Harbour sites

## HIGHLIGHTS

- Autonomous robot
- 8h patrolling autonomy
- Navigation with centimetre accuracy
- Embedded security systems
- Autonomous detection through artificial intelligence
- Supervisory user interface
- Missions customization

Find the P-Guard on [www.enovarobotics.eu](http://www.enovarobotics.eu)

**Dimensions**  
1,5 x 1,1 x 1,6 m

**Autonomy**  
8h

**Temperature**  
-20°C à +50°C

**Weight**  
240kg

## Perimeter patrols

## Interior security patrols

## Doubt clearing

## User interface

- Patrols programming
- Video and audio live streaming
- Robot remote controlling
- Remote interpellation
- Site aerial view
- Alerts journal
- Missions customization
