

PANIC/FEAR

This poem is written about the effects of the Corona Virus, 2020

The economy is humming along
People are working, singing the happy song

With life we are content
Blessing must be heaven sent

Someone wants to seize control
They attack our very soul

Our liberties are at stake
Constitutional freedom they take

How do you control the people of the land
Make them afraid to take a stand

We can control them with fear
Scare them with death if they don't adhere

Keeping people separate
Has only made them desperate

It is our neighbors we can trust

Our politicians not so much

Churches may no longer fill their pews

No more sending out the good news

Let the people become poor

Close each business' door

If you do not comply

They say someone will die

Lots of lies and misinformation

The media controls the nation

If compliance they refuse

Force is what the government will use

Our congress and legislators

Have become our dictators

It is time to stand up and fight

Do not be ruled by fright

It is our God given assignment
To bring justice not alignment

When freedoms are at stake
Don't be afraid a risk to take
