

# 2000 Series Cookstove

Our 2000 Series is our base model, wood-burning-only cookstove. Each 2000 Series stove comes standard with a warming shelf and solid polished steel top. Customers can choose between glass or solid doors for both the firebox and oven doors. As is standard for each of the Heco cookstoves, each stove includes air wash control, easy-access cleanout and a poker rod and ash tray.

## FEATURES:

- Burns wood
- #2000 heats up to 2500 sq. ft.
- Standard bi-metal draft regulator
- Air wash control
- Solid polished steel cooktop
- Easy access cleanout
- Optional glass door for firebox and oven
- Made in the USA

Temporarily Discontinued

# Optional Add-ons

**External Tank Coil**  
Our External Tank Coil is for use with heating water in an external tank, separate from the cookstove. This coil does not include tubing and fittings for hookup.

**Heat Shield**  
Our Heat Shield creates an extra level of insulation which allows the stove to be placed 12" away from a combustible wall, rather than the standard 18".

**Coil Kit**  
Our Coil Kit includes a 12" coil and fittings to connect the coil to the 22 Gallon Water Reservoir. This coil kit will be needed if use of hot water is frequent throughout the day.

**Summer Grate**  
Our Summer Grate elevates the fire in the fire box, allowing the stove to be used for cooking with a small fire in warmer weather.

**22 Gallon Water Reservoir**  
Our standard stainless steel reservoir mounts behind the warming shelf or closet. Plugs and spout included; works with Coil Kit (not included).

**Warming Closet**  
The optional Warming Closet offers a closed door feature to the standard Warming Shelf, keeping food on the shelf warmer for longer.

# Low-Maintenance Cookstoves That Will Last A Lifetime

## 420 Series Cookstove

Our 420 Series is the smaller of our two elite cookstoves. This stove is designed to burn either wood or anthracite and includes the standard warming shelf. Customization options for this stove include solid or glass doors, three different stovetop choices, and optional add-ons such as a summer grate, warming closet, and 22 gallon water reservoir. As is standard for each of the Heco cookstoves, each stove includes air wash control, easy-access cleanout and a poker rod and ash tray.

Heco #420

### FEATURES (#420 AND #520 MODELS):

- Burns Wood or Anthracite
- #420 heats up to 2000 sq. ft.
- #520 heats up to 2500 sq. ft.
- Standard bi-metal draft regulator
- Air wash control
- Easy access clean-out
- Optional solid or glass doors
- Three stovetop options
- Additional add-on options (i.e. summer grate, warming closet, and water reservoir)
- Made in the USA

### Oven Door Options:

Each stove comes with your choice of glass or solid oven door. If needed or desired, doors can be removed and replaced.

### Stovetop Options:

The Solid Polished Steel Top is welded to the stove body and has two clean-out lids. The 3 Panel Top allows for the entire stovetop top to be removed for easier cleaning and repair.

### Firebox Door Options:

Each stove comes with your choice of solid or glass firebox door. If needed or desired, doors can be removed and replaced.

## 520 Series Cookstove

Our 520 Series is the larger of our two elite cookstoves. The Heco 520 includes the same customization options as the Heco 420: solid or glass doors, three different stovetop choices, and optional add-ons such as a summer grate, warming closet, and 22 gallon water reservoir. The Heco 520 also includes the same standard items as our other stoves and is perfect for those with a larger home.
