

## Welcome to the Greater Edmonton Canoe Kayak Club

### Club News

#### Welcome to the first issue of our newsletter

We are pleased to share the first edition of our newsletter, keeping you up to date with all the latest news.

EDMONTON – GERCKC and SACKC have launched their new website yesterday. The website has been designed and developed by Zak. The new site projects an image of CanoeKayak Sport and Club programs that will surely inspire our community and the public to explore the many opportunities within our clubs.

With the launch, GERCKC is in the process of partnership with **Jasper Place High School** to do a promotional video, portrait photos of our athletes and coaches as well as stunning imagery to showcase our programs and also to increase participation across greater Edmonton. Along with the new refresh logos the new brand and creative websites seek to invite more Edmontonians to come paddle.

The site has been designed to be mobile friendly with easy accessibility for smartphones and tablets which are becoming increasingly popular for viewing content online.

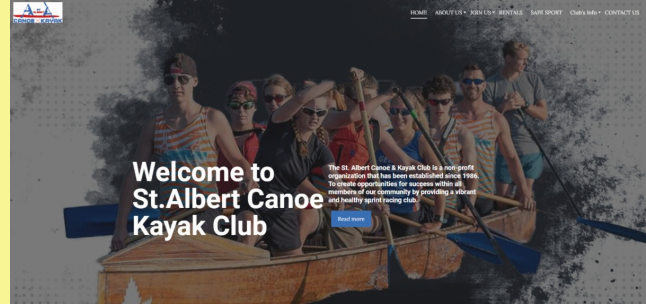

“We are thrilled to launch this site and hope it leads many more people to the water.” said Rick Hil

# EMPLOYMENT OPPORTUNITIES

## Coaching Positions

Looking for a fantastic summer job?  
SACKC hiring positions will be posted  
by the end of April for Summer 2022!  
Stay tuned!!!

## Stack TeamApp

During the last three months, we have been using the Stack TeamApp to improve our communication by creating our own customizable user-friendly features. Content gets automatically sent via push notification to smartphone members, and via e-mail to non-smartphone members. The App is Free of charge. All senior and Junior athletes enjoyed using it. We haven't used all the features yet until athletes become more familiar with the app.

Now the app is open for parents to join so if you are a parent and would like to join please check the instruction on the picture or simply download "Stack TeamApp" and search for GERCKC and sign up to the parent group

## Stack TeamApp
