FRAMES

FEATURES

- | RMI Approved
- | 2" Vertical Adjustability for Beam Placement
- | Tear Drop Style
- | Welded Baseplate Design with Rounded Corners
- | Bolted Frame Design with Tube and Channel Horizontal at 42" Centers
- | Manufactured Using 55,000 PSI Strength Steel
- | Backers Available Upon Request
- | 3 x 3 and 4 x 3 Columns Available

Frame Capacities - 3" x 3"

120"	19,300	22,000	<u>25,900</u>	27,700

***Capacities that are Bold and Underlined are Items We Stock in Large Quantities

Notes: Capacities Are Determined Per ANSI 2012 and RMI 2012. • Capacities Are Based On Static Loads Only Of K=1.2. Consult Seismic Engineer For Seismic Loads. • Capacities Are Based On Unsupported Span of Column Members and Y=42" Frame Panel Heights. • Capacities Are Only Valid When Used With Ultra Rack Beams. • Unsupported spans are clear vertical distances between the floor and the first beam level, as well as the vertical distances between adjacent beam levels.

Custom sizes, colors, and specials are available from factory production.

ROLL-FORMED STEP BEAMS

FEATURES

- | 1-5/8" Beam Step Height
- | Universal Tear Drop Connectors
- | Custom Powder Coat Colors Available
- | Welded Push/Pull Safety Clip
- | RMI Approved

Notes: Capacities Based Upon Pair of Beams • Capacities Are Determined Per ANSI 2012 and RMI 2012 • Design Engineer Must Be Consulted For Loads of 10,000 lbs. or more Uniform Distribution of Weight Is Assumed Along The Entire Length of Both Beams • Capacities Are For Static Loads Only. Consult Seismic Engineer For Seismic Loads Values Shown Reflect The Capacity of The Beams Based On The Lesser of It's Strength In Bending or L/180 Deflection Criteria. Metrics table is measured in pounds. Consult UMH or E.O.R. for 192" Beam Capacities. Drop beams, adjustable beams and other engineered beams available upon request. 2-1/2" face height beam is standard in 16 gauge only.

Custom sizes, colors, and specials are available from factory production.

Custom sizes, colors, and specials are available from factory production.

WIRE DECK

FEATURES

- | 2-1/2" X 4" Wire Pattern Supports the Bottom of the Pallets/Boxes in a Uniform Distributed Way
- | Provides Fall Through Protection
- | Open Wire Grid With > 50% Open Area Complies with Fire Codes Regarding Overhead Fire Suppression Systems
- | Step Support and Waterfall Available

Wire Decks

Description

New Wire Decks, 24" Depth, 46" Width, Capacity: 2,000#, Style: Full Step Channel

New Wire Decks, 36" Depth, 46" Width, Capacity: 2,000#, Style: Full Step Channel

New Wire Decks, 36" Depth, 46" Width, Capacity: 2,500#, Style: Full Step Channel

New Wire Decks, 36" Depth, 52" Width, Capacity: 2,500#, Style: Full Step Channel

New Wire Decks, 36" Depth, 58" Width, Capacity: 3,000#, Style: Full Step Channel
