Tennis

GET THE MOST OUT OF YOUR LIGHTING INVESTMENT

The HOLH Series is a highly configurable linear LED high bay that is exceptionally efficient while delivering high quality performance. The wide range of outputs and performance grade optics makes this fixture ideal for Tennis Play.

HOLH Series fixtures can reduce energy consumption by up to 53% over traditional fluorescent fixtures and 60% over HID light sources. The combination of energy efficient LEDs allows the HOLH to produce over 157 LPW (Lumens Per Watt) or up to 95,730 delivered lumens @ >80 CRI CCT.

ENERGY SAVINGS THROUGH SMART CONTROLS

Your facility can benefit from smart energy solutions along with additional energy savings realized by the use of Bluetooth Mesh Smart Controls. They are easy to program and set for desired 10-100% dimming levels.

Our HOLH direct lighting or TIHB Series Indirect solutions can be used to create a visual experience that raises your facilities appeal. They can be used for any space with high ceilings and open spaces. Indoor tennis courts, field houses, and athletic training complexes.

WHAT TO EXPECT

Center Court indoor LED sport fixtures enhance the game experience for both players & spectators. Their rugged construction and engineered performance provides energy efficiency and extended service life.

Not only will you be saving on energy bills by decreasing your electric consumption by half vs. Metal Halide and traditional

fluorescent fixtures, your long term maintenance cost savings will also be appreciated by utilizing these LED fixtures.

The outstanding lighting technology within this fixture, at >80 CRI in 4000K or 5000K, provides superior visibility on the courts. The ability to see the ball clearly is critical to your members and guests. The superb light distributions from our HOLH will allow you to see the speed and spin of the ball, critical to a professional style match. Mounted at the correct heights, which our in-house experts will assist you with, and that appropriate light distribution, you will also eliminate any possible glare issues which other fixtures don't solve.

With minimal noise pollution, unlike the constant buzzing of typical Metal Halide ballasts, our fixture is quiet and does not distract from the concentration of the players. Our State of The Art HOLH Tennis LED High Bay, will allow your club to get a remarkably notable, first-class, high-performing fixture.
