

LDVA SERIES

Angled Davit Arms

SPECIFICATIONS

APPLICATION

The LDVA Series of Angled Davit Arms with angled adapters were designed to allow the mounting of directly onto a 3-1/2" OD tenon to allow the mounting of the Techlight LSMT, CTL, CTA Series LED Tennis Fixtures. The arms were designed to provide fixture symmetry and better lighting performance, and to provide the appropriate amount of extension over the playing surface to keep pole locations away from the playing boundaries.

CONSTRUCTION

The heavy duty arm is constructed of steel tubing. Each arm provides approximately 3' of rise and 3' of extension towards the playing surface. Angled adapters keep the mounted fixtures uniform and straight. LDVA Davit Arms are available in the following mounting configurations: Double 70° and Quad 70°.

FINISH

Super Durable Polyester powder coat finish is electrostatically applied in our state of the art paint facility. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request.
