

Litter Prevention & Abatement Committee

This committee will plan, execute, and support activities designed to reduce the amount of litter in West Feliciana Parish by serving as KWFB's primary coordinator for events related to litter prevention and abatement. Such events might include periodic volunteer roadside pick-ups, periodic neighborhood clean-ups, The Great American Clean-up, and perhaps a sweep campaign to clean up area creeks (i.e. Bayou Sara). In doing so, this committee will utilize local KWFB volunteers, partner with local organizations, provide equipment & materials (*garbage bags, vests, grabbers, tools*) and arrange for law-enforcement escort(s) when needed.

This committee will serve as KWFB's interface with WF Parish Government, WFPSO, SFPD, LW&F, Waste Management and others as it relates to the parish roadside pick-ups, illegal dumpsite clean-ups, disposal and enforcement activities.

The committee might initiate preventative measures that involve the acquisition and placement of proper waste receptacles in the parish where appropriate, or possibly assist with the procurement / placement of surveillance cameras and/or warning signs used in enforcement activities.
