

Salesforce Export Needed for Mass Data Import

“Eric, You are an **Awesome Salesforce Implementor!**

I needed a Salesforce Expert who could extract our records from Sugar CRM into Salesforce, authenticate the data, ensure it was placed into the proper home in Salesforce. The data needed to be 150% accurate and be merged into the correct object ERROR FREE! He genuinely cared about our business needs, provided great communication, and incredible suggestions that improved our project. He is exceptionally talented in **DELIVERING** answers to complex questions. He is our focal point for Salesforce issues. “

stated **Hillel Rudolph**, Executive Director, Naaleh Torah Online

The above testimonial, taken directly from my recent client who also, upon project completion, requested that I stay on as their Contracted Salesforce Admin to oversee their data maintenance and automation of over 150,000 records.
