

October 17, 2023 – Day 2,111,457 of the Crisis of Identity

Subject: Is Christianity Failing & Why?

Tuesday: Origins of Christianity

The focus of this tradition of faith is based on the person we know from history as Jesus. A man from the city of Nazareth in the region of Galilee, born into the culture of the Hebrews/Jews. One of our greatest failings is believing within the governments of this world is the kingdom of Jehovah. We keep praying for Jehovah to heal our land. Why?

Mankind has already been found guilty, and unwilling to repent of this guilt. We read this from the very beginning in the account of the creation of Adam to John's revelation. It did not take long for the truth concerning Jesus to be adulterated for the purposes of mankind. As early as the second century we see this adulteration, starting with the apologies of Justin (we call the martyr), culminating with the writing of Athanasius, "On the Incarnation".

Today we continue to perfect the formula used in the past by men who continue to advance the knowledge of good and evil in the earth. Men trying to make a name for themselves in the Roman and Greek world via the political structure or within the schools of philosophy.

Download e-sword here and begin to examine the writings of the Creation, Transgression, Reconciliation, and ultimately the salvation of mankind out of death. <https://e-sword.net/>

Wednesday:

Subject: Is Christianity Failing & Why?

Title: Foundations that shaped Christianity

On the surface of our current world, we see nation against nation, brother fighting brother, ancient disagreements that persist within a world of rebellion. How do we understand what is taking place in light of the way Jesus walk that shows us the truth that brings eternal life? We want to speak specifically to the splintered denominations of Christianity. Because Christianity is defined by a Roman system dictated by a series of councils of Bishops that determined how mankind should worship or more to the point serve the state. Is Christianity based on this foundation of the way, the truth, and the life?

While we focus on prophecy already fulfilled, we continue to miss the mark which allows the rebellion to persist. There has been a great falling away and an adulteration by the man of lawlessness Paul spoke of in the letter to believers in Thessalonica. The problem is we are still looking for something that has already happened and why we cannot understand the signs of the times.
