

October 2, 2024 – Day 2,111,805 of the Crisis of Identity

Title: Man Made (Artificial) Intelligence

When we look back at the biblical narrative we see 3 seismic events since the catastrophic event of the flood. The first of these is the story of babel and the people who came together with a dark plan to define their culture and existence by their own strength. This brings us to the consequence of that action. The barrier set in place at babel by Jehovah, I believe, was more devastating than what we consider. But we should consider in light of this technological age that is upon us and how man-made intelligence is stripping away these barriers.

1. Go over Confound
2. What happened? Mixing the language, speech, what else?
3. Overcoming the short comings of our abilities to use our minds with AI
