ABILITIES

- Has an interest in becoming a volunteer with River Otter Research and Otter Education Programing
- Lacks physical handicaps which would interfere with the ability to perform volunteer activities requiring a high level of mobility
- Can perform volunteer tasks that do not require a high level of mobility
- Enjoys working with people of all ages
- Enjoys asking questions
- Enjoys working with young people
- Can accept supervision
- Can work with limited supervision
- Can attend one, one hour meeting once a month regarding volunteering and volunteer activities
- Enjoys presenting information to various audiences, i.e. giving talks on various topics
- Can independently set up equipment to present programs with a digital projector
- Can learn how to use and set up digital projector equipment to present programs
- Can teach others how to create digital documents, presentations, and spreadsheets
- Can assist someone in editing, developing and managing a website
- Is interested in being an editor of or contributing to a monthly newsletter regarding activities of the Otter Research and Otter Education Programing
- Can wear a brown tee shirt with the words "Otter Spotter" in large white letters on the back and/or "Team Otter" in small white letters in the upper left front area of the tee shirt
- Can ask friends and neighbors about river otters they may have seen
- Can attempt to recruit friends and neighbors to become involved in Otter Research and Education Programing
- Can specifically attempt to recruit friends and neighbors to be Otter Spotters
- Can supervise a small group of otter spotters within a short distance of your residence
- Can conduct river otter information surveys of Home Owners Associations and golf course managers
- Would enjoy creating and distributing information such as flyers and pamphlets
- Would enjoy editing an "Otter News" section in the River Otters of South Florida website
- Can absorb the fuel costs of using your vehicle to present education programs about river otters
