

# Map of River Otter Roadway Mortality Sightings in Florida

River Otters of South Florida: Otter Research  
and Otter Education Programming

UNDER CONSTRUCTION

The software to create an interactive digital map of River Otter Roadway Mortality Sightings in Florida has not been determined. Once this is determined and installed, a map will appear containing pins showing all the reported locations where otter roadway mortality sightings in Florida have occurred.

Even though the map has yet to be installed please consider completing and submitting an otter roadway mortality sighting report. To access a River Otter Roadway Mortality Sighting Report Click [Florida River Otter Roadway Mortality Sightings in Florida](#)

It may take until mid 2019 to install the software and enter all the backlogged sighting data and the sighting reports received since launching this website.

Thank you for your patience. (Victor L. Camp)
