

River Otters of South Florida

**ROSF**

## **Otter Sightings**

### **River Otter Sightings in South Florida**

#### **When Will Your Reported Otter Sighting in South Florida be Recorded**

Your River Otter of south Florida sighting will be recorded on an interactive digital map of the state of Florida. At this time the software to generate and record the sightings on the map has not been determined. In addition, an individual needs to be located that can create the map using the selected software. Please be patient and enjoy the rest of the website (Victor L. Camp)
