

River Otters of South Florida

**ROSF**

# **Otter Sightings**

## **Otter Sightings in South Florida**

### **Importance of Reporting River Otter Sightings in South Florida**

It is important to complete a South Florida River Otter Sightings Report as the information compiled from these reports is intended to provide an overview of the river otter population presence in south Florida. Hopefully, this information will also help guide the decision-making process of the Florida Fish and Wildlife Conservation Commission (FWCC) wildlife managers responsible for the long-term survival of the river otter in south Florida.

After reading about the “importance” and wish to complete a South Florida River Otter Sightings Report **Click** Report a River Otter Sighting in South Florida and you will be linked to a form to complete and submit to the River Otters of South Florida(ROSF) website
