Florida Otter Research

Otter Research at Other Florida Universities

UNDER CONSTRUCTION

A survey of river otter research activities at 12 Florida colleges and universities, with a four-year degree program in the biological sciences, was conducted. These 12 universities were the only Florida education institutions located by an online search. What follows is a sample of the survey:

River Otter Research Survey of : Florida Colleges and Universities Offering Four Year Degrees in the Biological Sciences		
Name of College or University		Academic Department, Division, or Section Name
Your Name		Academic Position Held
Email	Academic Phone	Cell Phone
Academic Address		
Are you conducting any research on river otters (<i>Lontra canadensis</i>)? ___ Yes ___ No		
If Yes, Please Describe Your project(s)		
Is there a graduate student at your institution investigating river otters? ___ Yes ___ No Not aware of any___ If your answer is yes, please advise me how I may contact him or her		
Are you aware of anyone at another Florida college or university conducting research on river otters? Yes___ No___. If your answer is yes, please advise me how may contact him or her.		
Please check out my website: www.riverotterssouthfl.com		

SURVEY RESULTS: When the results are compiled they will appear here.

I do not expect the survey results will compiled until Summer of 2021.

Thank you for your patience. (Victor L. Camp)
