

FIREHOUSE MOBILE DETAIL

“Chief” Plus Detail w/ protection package

WASH & DRY

Vehicle is washed with automotive-specific shampoo with wax to safely remove dirt and grime without causing additional micro scratching and marring, then dried with microfiber drying towels and compressed air.

DOORJAMB AND FUEL FILL

These dirt-prone areas are cleaned hinges and latches are lubricated for smooth operation and rust protection.

WHEELS CLEANED

Wheel surfaces are cleaned to remove tough baked on brake dust and road grime that can lead to damage to polished areas.

TIRE DRESSING

Tires & Wheel wells are cleaned and dressed to a deep black luster with a silicone and solvent free dressing.

PLASTIC & RUBBER TRIM DRESSING

All exterior plastic and rubber moldings and trim is cleaned and UV protected with a dressing.

MACHINE POLISH / PAINT CORRECTION (CUT & POLISH)

A multi-function polishing compound is applied with a machine polisher for outstanding results. Up to 80% of swirl marks, light scratches and marring are removed to a huge difference in paint clarity, gloss and depth. See www.FirehouseDetail.com for more information. A layer of wax is left behind and is then topped with a synthetic sealant for up to 3 months* of protection

THOROUGH VACUUMING

Complete interior is vacuumed to remove loose dirt and debris.

FLOOR MATS CLEANED

Floor mats are removed and thoroughly cleaned to remove most stains, ground in dirt, allergens and bacteria.

CARPETS STEAM CLEANED / EXTRACTED

All carpeting is pre-treated and then cleaned with either a "dry" foaming shampoo or a hot water extractor (aka steam cleaner) is used to pull deep soil, stains, and bacteria from carpeting.

INTERIOR UV PROTECT AND DRESSING

All interior surfaces are cleaned and a UV protectant dressing is applied. It leaves your interior looking fresh with a non-greasy look and feel.

STEAM-VAPOR CLEAN

A high temp, high-pressure steam is used to clean and disinfect all of the tightest nooks and crannies around your interior. Dash vents are cleaned and the stickiest of spills are removed.

SEATS AND UPHOLSTERY

Seats and upholstery are cleaned for to remove ground in dirt, allergens, bacteria and odors. Leather surfaces are cleaned and conditioned with automotive specific leather care products to remove rubbed in body oils and allergens. Suppleness is restored and conditioning oils are absorbed into leather.

HEADLINER SPOT-CLEAN

Random pen marks and dirty fingerprints are removed gently to prevent damage to the fragile headliner materials used today.

GLASS CLEANED INSIDE AND OUT

All glass is thoroughly cleaned inside and out, including mirrors. On exterior glass and mirrors, a cleaner with a water repellent component is used.

“Plus” Protection package includes...

Protective products are a much more durable and higher performance than what is used with the standard Chief Detail

- Interior fabrics & Upholstery are treated with a much more durable and breathable protectant to resist staining, odors, bacteria and allergens from settling in.
- Leather surfaces are cleaned, and an automotive leather-specific protectant applied to resist against staining, dye transfer from jeans, and absorption of body oils and sunscreens / lotions.
- Exterior Paint is protected with a 6-8 month “Lite” Ceramic hybrid coating with great gloss, depth to the color and strong hydrophobic properties. This means a surface that will stay cleaner, longer and will be a breeze to wash when you do need to and will have that just-waxed look and protection for months!
- Windshield is treated with a hydrophobic glass coating to repel rain snow and ice buildup. Rainwater will bead and blow off at higher speeds giving you better vision and saving wear on wiper blades. Snow and ice will be much easier to remove and faster to melt off on those cold mornings. Think Rain-x®, but much longer lasting and higher performance.

Professional Detailing at YOUR Location with the Value and Quality you expect and the Value you deserve!
