# The Company

Girard's has been a leader in the development of unique cooking sauces, salad dressings, dips and marinades since 1935 - the year Girard's French Restaurant started making dressings in San Francisco.

**Salad Dressing and Sauces** - GFF develops product that combines flavor, mouthfeel and experience all in one bite. This passion, to add flavor to any dish, has made the company unique in its position in the market.

**Premium Ingredients** - The quality of GFF's ingredients is unmatched. Every recipe is carefully formulated with the same focus on flavor and freshness the founders had over 80 years ago.

**Private Label** - GFF offers comprehensive programs to support single-use portion control and foodservice applications.

**Formula Development** - GFF's product development teams work on hundreds of new formulas every year, including non-GMO options. We then work with culinary chefs to create unique recipes to capture our variety of flavors.

**Certifications** - GFSI (IFS Food Standard - Higher Level), QAI (Quality Assurance International) Organic Certified, and OK Kosher Certified.
