#### STRESS PREVENTION TIPS

The holidays can cause anxiety and be a stressful time so here are a few tips to help prevent stress this season. Keep a positive attitude and accept that there may be events that you cannot control. Practice relaxation techniques such as meditation or yoga, this will help your body and mind relax as well as manage stress at the same time. Lastly, set your limits and say no to requests that may be cause excessive stress.

#### HOLIDAY TIPS

The holidays are approaching fast and with COVID-19 still around we have to make sure we are celebrating safely. For those who may be at a higher risk with COVID-19, consider hosting a dinner party so guests can still celebrate while staying safe in their own homes. The greater number of guests, the greater risk of infection and spread, keep the guest list small and make sure that there is enough room for guests of different households to stay at least six feet apart. This may even mean hosting the event outdoors. Taking the extra safety precautions this year can allow you and your family and friends to celebrate and minimize the risk of the spread of COVID-19.
