

## Archery

The 2024 Weslaco Archery/Madison Middle School class and range experience took place on [May 4th](#). There were fourteen (14) classroom participants along with parents and/or guardians. An additional seven (7) participants joined the group at the archery range for practical experience, several from the Madison School System.

The instructors (Janet Sovey and Melissa Colarik from Madison Middle School, and Cheryl Bissler retired [NASP Certified]) did an outstanding and thorough job in the classroom portion. Safety was emphasized throughout the presentation, along with tips to help with shooting and accuracy. Non-member Ross Nichols and Chuck Bissler [USA Archery Certified] handled the set up and range and acted as safety officers.

The weather was dreary with light rain at times, but that did not dampen the participant's enthusiasm. During the range time, participants became competitive when prizes were offered.

Thanks to the Weslaco members who came to help and made the set up and tear down for this event go smoothly.

Some happy faces learning and showing off their archery skills
