ABOUT US

VISION:
MK RESULTS, LLC, and its speakers have collaboratively set out to introduce "result-driven" best practices to create a more equitable world, where there are equal opportunities for everyone to develop and reach their **unlimited** potential. By promoting meaningful relationships and the development of a "growth mindset," we aim to see that everyone opens themselves up to the possibilities that life has to offer, which are sometimes found in the life and purpose of other people—people who are different from us, people who we least expect... Join us as we embark on a journey of social and self-awareness that leads to mindfulness, action, and results!

MISSION:
Train and equip students, educators, community members, city, state, and federal departments, businesses, corporations, and any entity that seeks to create a more equitable and positive environment; thus, leading to noticeably valuable results!

More and more, there are news stories surfacing that are impacting our society today that will create lasting imprints and effects. More and more, there is an increase of violence, misunderstandings that result in tragedy, cyber-bullying and more, while we hear echoes of silence that permeate our society leading to frustration and anger. MK Results, LLC, seeks to begin "A friendly conversation" to change the silence into awareness and action. In a rapidly changing world, new issues and challenges arise almost daily. Through training and workshops, delivered with quality and professionalism, issues of contention, privileges, and power will be addressed. Our aim is to increase awareness through historically social inequities and the impacts seen in today's society, to foster a community that embraces differences and creates an opportunity for more friendly conversations to continue. Our commitment is to promoting diversity and inclusion among organizations, neighborhoods, jobs, schools, and communities as we are the example for the future.

COMPREHENSIVE

Our workshops, trainings, and services are designed to facilitate a "growth mindset" and holistic approach to achieving an in-depth understanding of implicit bias and impacts in society.

FUNDING OPPORTUNITIES

Please contact our office for your personalized needs, information on cost, sponsorships, grants and other funding sources available.

SAFE PLACE

MK Results, LLC, is committed to providing a safe, open, and friendly conversation to begin a dialogue with the goal of understanding differences, embracing diversity, and respecting each individual person for their contribution to our learning.

TOLERANCE

Through research-based practices and trainings, the end result will be a greater understanding of each other and a celebration of differences as an asset. We can all live peacefully and live our best life by practicing acceptance and becoming reflective.

UNLIMITED POTENTIAL

By building, developing, and maintaining meaningful relations and by practicing a "growth mindset," we aim to assist each individual in our course to open themselves up to the unlimited possibilities life has to offer after identifying negative energy that may be stunting growth.

PERSONAL & PROFESSIONAL GROWTH

All services are focused on a holistic approach. MK Results, LLC, and its consultants seek to better understand themselves in order to understand how their experience can shape their outlook.

"My wish for you is to continue. Continue to be who you are, to astonish a mean world with your acts of kindness."
