EAA Board Vacancies June 2022

Both jobs are fairly easy to handle. One of the main tasks for each is being able to attend 2-hr monthly board meetings (some absences are OK). A brief report on status of what's going on in your area is typical. The other important task is to openly discuss EAA matters, make proposals for action, and vote for approval or disapproval on proposals.

1st VP (Programs) finds demonstration artists for the monthly demo. Lists of qualified artist are provided. Initial contact is via telephone and/or email. There are existing letter templates that are used to establish the agreement. Suzanne indicates that the demo calendar has been filled thru November, so only follow-up with the artists will be required for the remainder of 2022.

The Secretary takes notes at the Board meetings and then prepares a draft minutes report for review by the Board Members. After review a final copy of the report is made. Those minutes are then approved by the Board at the next Board meeting. The Secretary keeps records of these reports and any other items pertaining to the EAA.

Job descriptions will be provided upon request.
