

REGION 13 - EXISTING FLOOD HAZARD - DUVAL COUNTY

DRAFT

List of Flood Mitigation project (FMP)s, Flood management Evaluation (FME)s and Flood Management Strategy (FMS)s for Duval County

Type (FMP/FME/FMS) ¹	ID	Name	Description	Cost	Sponsor	Goals	RFPG Goals ID
FME	131000053	Las Animas Conveyance Infrastructure	Channel improvements to system near Las Animas Creek to improve conveyance: - Upsize culverts on Palacios St and S Benavides St - Improve conveyance capacity under bridges on HWY 359 and HWY 339 - Procurement of easements and rights-of-ways		City of Benavides, Duval County	13000013	5
FME	131000054	Benavides Main City Network	Improvements to the Drainage System in Central Benavides: Increase capacity to inlets and pipes on Depot St, E Railroad Ave, Clark St, E Mesquite St, & Peters St. Upsize pipes downstream of the inlet on Highway 339. Expand network to Santa Rosa de Lima Street. Improvements to concrete channel on Peters Street. Improvements to outfall structures. Procurement of outfall easements		City of Benavides, Duval County	13000013	5
FME	131000055	Upsize Burch St Crossing	Improvements to Earthen Channel System: Increase culvert capacity on Burch St and other undersized crossings. Channel improvements along the main earthen channel		City of Freer, Duval County	13000013	5
FME	131000056	Northern San Diego Street Conveyance Improvement	Improvements to street overland drainage system: Curb and gutter replacement. Improve conveyance by road paving and regrading of prioritized streets		City of San Diego, Duval County	13000013	5
FME	131000057	Northern San Diego Drainage Improvement Project	Drainage improvements to subsurface drainage systems. Installation of new underground drainage infrastructure along Luby street. Expansion and improvements to Dix Street System.		City of San Diego, Duval County	13000013	5
FME	131000060	Improvements to Drainage Connectivity along Railroad	Improvement to underground drainage system to increase capacity and improve conveyance on railroad under-crossings and on sections of		City of San Diego, Duval County	13000013	5

List of Flood Mitigation project (FMP)s, Flood management Evaluation (FME)s and Flood Management Strategy (FMS)s for Duval County

			Highway 44 to improve stormwater drainage from north to south				
FME	131000062	Southern San Diego Drainage Improvement Project	New underground stormwater collection system along Collins Street, including interconnections between existing and new infrastructure.		City of San Diego, Duval County	13000013	5
FME	131000061	Improvements to San Diego Levee Outfall System	Improvements to outfall structures and appurtenances along San Diego Levee System		City of San Diego, Duval County	13000013	5
FME	131000058	Realitos Drainage Improvements	Improvements to surface and subsurface infrastructure of Realitos Drainage System		Duval County	13000013	5
FME	131000059	Concepcion Drainage Improvements	Improvements to drainage infrastructure in Concepcion		Duval County	13000013	5
FME	131000034	County Wide Drainage Master Plan Study	Drainage Master Planning Study - Duval County		Duval County	13000013	5

¹ Flood Management Evaluation (FME)- flood study of a specific flood prone area needed to assess risk

Flood Mitigation Project (FMP)- structural or non-structural project that when implemented will reduce flood risk, mitigate hazards to life or property. Includes nature-based solutions. 'No negative impact'

Flood Management Strategy (FMS)- proposed plan to reduce flood risk or mitigate flood hazards. Any action that a RFPG would like to evaluate and recommend that does not qualify as FME or FMP.
