2024 MOADN CANDIDATE PROFILE

<mark>Nominations Committee Member Candidate</mark>

Name: Paula Rounsaville, MSN, RN, CNE
Current Employer: Mississippi Delta Community College
Title/Position: Campus Lab Manager

Personal Statement of Candidacy: (Include your goals for this office)

I would be honored to serve as a member of the nominations committee. My goals for this committee are to prepare a slate of qualified officers for nomination. We need officers that are motivated and share the same philosophy as MOADN will benefit from my previous years of experience in the professional work force. Throughout my career, I have always exhibited strong skills in organization and efficiency. Time management and prioritization are two of my strong qualities that I would utilize as my part of developing and maintaining a well-organized nomination slate. I would work well with other committee members in achieving set deadlines as scheduled.

Brief Summary of M-OADN/OADN involvement:

I became a member of MOADN when I began my employment with MDCC ten years ago. I have witnessed this organization being an active voice for the student nurses in legislation and in healthcare policy. Our organization helps to support the ADN student as they transition in to the workforce to fill the healthcare needs of our state. MOADN is a foundation for the students to learn the role of being active in their professional organizations post education. It also promotes team building and professional development in the nursing field.

I have served on the Nominations Committee in the past for a term. Following that position, I served in the role as Membership Chair. I enjoy working with the MOADN Board to continue to promote ADN nursing in education and in health care roles serving our communities.

Other Professional Memberships and Activities:

In addition to being a member of MOADN, I have been a member of Sigma Theta Tau. I have had my Certified Nurse Educator certification for the past 6 years. I look forward to serving in any capacity to support nursing education.
