

#### Mediastinum

#### **Abstract Instruction for Authors**

We are pleased to have the meeting abstracts published in Mediastinum. But the abstracts will undergo in-house evaluation and be accepted for publication when they meet the journal requirements. The Abstract Book of ITMIG 2023 is accessible for reference at: https://med.amegroups.org/issue/view/456.

### 1. Title

**2. Keywords:** 3-5 keywords

#### 3. Author(s)

Full name (first name, middle initial and last name) of each author followed by each author's department(s), institution(s), city and country with which each author is affiliated.

## 4. Corresponding Author

Corresponding information should include the name, address, and e-mail address as below.

Full name

Department, Institute/University/Hospital, Street Name & Number City, State, Postal code, Country

E-mail

**5. Word limit:** 200-350 words. There should be no figures, tables, or references in the abstract. If there are any, the abstract will be returned to the authors for revision (to ensure the abstract is accurate and complete after excluding the figures/tables/references).

# 6. Abstract for Original Article/Research

Abstract for an original article should be structured usually into four paragraphs with the following subheadings: Background, Methods, Results, and Conclusions.

### 7. Abstract for Randomized Controlled Trial

Abstract for a randomized trial should follow the suggestions in "CONSORT for Reporting Randomized Controlled Trials in Journal and Conference Abstracts: Explanation and Elaboration". Available at

https://journals.plos.org/plosmedicine/article%3Fid=10.1371/journal.pmed.0050020

1) The author should fill in the reporting checklist titled "Items to include when reporting a randomized trial in a journal or conference abstract" and submit it together with the abstract as an additional file. The checklist could be downloaded at: https://www.amegroups.cn/pdf/7274d1520af6a86ac30a631bcd26bce7

2) The author should also add the following statement at the footnote of the abstract: Reporting Checklist: The abstract is presented in accordance with the CONSORT for Reporting Randomized Controlled Trials in Journal and Conference Abstracts.

# 8. Abstract for Case Report

Abstract for a Case Report should be structured with the following subheadings: Background, Case Description, and Conclusions

Background: state what is known and unknown; why the case report is unique and what it adds to existing literature.

Case Description: describe the patient's demographic details and main history, the main diagnosis, interventions, outcomes and follow-ups.

Conclusions: summarize the main take-away lesson, clinical impact and potential implications.

### 9. Conflict of Interest (COI) Form

Conflict of Interest (COI) Form must be provided, as suggested by ICMJE (http://www.icmje.org/conflicts-of-interest/). The form could be downloaded at: https://cdn.amegroups.cn/static/public/coi\_disclosure.docx

- 1) Please collect the completed forms from each author and submit them along with the manuscript.
- 2) Please add the COI statement to at the end of the article if the authors have any conflicts to declare (be consistent with the COI Forms).
- If there's nothing to declare, please state it as follows: All authors have completed the ICMJE uniform disclosure form. The authors have no conflicts of interest to declare.
- If there's potential conflict of interest to declare, please provide summarize them as follows: *All authors have completed the ICMJE uniform disclosure form. XXX reports that...... The other authors have no conflicts of interest to declare.*

## 10. Acknowledgement (including funding information)

- 1) All contributors who do not meet the criteria for authorship should be listed in the 'Acknowledgments' section.
- 2) The 'Acknowledgments' section should also detail all funding sources for the work in question. There must be a section "Funding" within the "Acknowledgments" section. If the research was carried out without funding, "None" should be stated in

Publishing Company

this section.

## 11. Footnote (footnote may include the following items)

1) Reporting Checklist (only required for randomized trial), e.g.,

Reporting Checklist: The abstract is presented in accordance with the CONSORT for Reporting Randomized Controlled Trials in Journal and Conference Abstracts.

2) Conflicts Of Interest (required for all abstracts), e.g.,

Conflicts of Interest: All authors have completed the ICMJE uniform disclosure form. Dr. xxx reports personal fees from xxx. The other authors have no conflicts of interest to declare.

3) Ethical Statement (required for all abstracts), e.g.,

Ethical Statement: The authors are accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

\* Original Research/Randomized Controlled Trial should include Declaration of Helsinki, Institutional Review Board Approval (including ID), and Informed Consent in the ethical statement. E.g.,

Ethical Statement: The authors are accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved. The study was conducted in accordance with the Declaration of Helsinki (as revised in 2013) and approved by XXXXX University Oncology Institutional Review Board (IRB #: 2017-0829). Because of the retrospective nature of the research, the requirement for informed consent was waived. (Written informed consent was obtained from the patient.)

\* Case Report should include Declaration of Helsinki and Informed Consent in the ethical statement. E.g.,

Ethical Statement: The authors are accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved. All procedures performed in studies involving human participants were in accordance with the ethical standards of the institutional and national research committees and with the Helsinki Declaration (as revised in 2013). Written informed consent was obtained from the patient for publication of this case report and accompanying images. A copy of the written consent is available for review by the editorial office of this journal.
