

Exploratorium of Energy Part 2: The Pillar of Light

Presented by Mary Note Law
With Loving Support from Reverend Michael Rogers

Receive Healing Transmissions While Building the Energetic
Pillar of Light

In this next installment of the Exploratorium of Energy Series, you will be offered two complimentary experiences. Each week, you'll bask in Lovingly delivered Divine Frequencies for Healing, and you will be guided in integrating these energies through focusing your awareness systematically on your own energetic structure known as The Pillar of Light.

When you place your awareness within your energetic structure, your access to that element of your energetic anatomy increases. The Pillar of Light construction process is about placing your awareness within the structures contained within the Pillar~ your Head Center, Heart Center, Belly Center, and the energy centers 8-12" above and below the body— your Soul Star and your Earth Star. Each center has its own qualities that support your intuitive, Divinely Guided path of living, and when developed as a set, the Pillar as a whole helps you to flow, process and incorporate beneficial energies in a potent way.

Each week we will explore one of these energy centers. I will then transmit a healing frequency for you to enjoy. Following this, I will guide you in a Pillar of Light meditation in which you can systematically attune your awareness to the energy centers of the Pillar of Light. During the meditation, you will be working with your Higher Self and with Light Beings to incorporate and more richly benefit from the healing energies that you have just received.

Each week, we will emphasize a different energy center, and the healing frequency or frequencies that I offer will be matched with the qualities of the energy center of the week. A brief description of the Energy Centers and the Healing Frequencies follows:

Week 1: The Head Center: This center includes the chakras of the head~ the third eye, crown and ears. Building this center supports you in tuning in to inner vision and hearing, can improve your Intuitive Awareness, and helps you to more clearly receive, process, and transmit Divine Energies, Guidance and Information.

Healing Frequency: Arcturian Brain Balancing~ This complex of frequencies addresses brain structures, chemistry, and neurology to support your capacity to function optimally and in a state of equanimity, or centered Peace.

Week 2: The Heart Center: This center includes the Heart and Solar Plexus chakras, with which we process Love~ for & from ourselves, others, and The Divine. Bodily areas impacted by this center include the heart and lungs, breasts, shoulders and ribs, thymus and lymph nodes.

Healing Frequency: ChristLight Divine Love Immersion. This frequency is best experienced through a guided meditation, so that you can bask in the Love that the Divine has for you. As I guide you, I'll also be streaming this frequency, that you may savor your own experience and the transmission as well. This process helps to clear the Heart Center of obstructions to giving and receiving Love, and, as the Powerful Love of the Divine courses through your system, it frees you to flow Love more richly into all areas of your Life.

Week 3: The Belly Center: This center is an access portal to your Inner Wisdom and Creativity. It is also a “power up” center, that can fuel your energy system and offer you increased physical vitality. The lower chakras, root and sacral, are contained within the center, and as such it is associated with feelings of safety, belongingness, prosperity, stability, creativity and pro-creativity.

Healing Frequencies: Arcturian Metatronic Causal (Karmic) Device Frequency; Arcturian Wealth Frequency; ChristLight Divine Fire for Creativity (Fire in the Belly.)

This transmission will contain an array of frequencies to help clear your system of Karmic disruptions to living in Peace, and to activate and usher energies of creativity and security.

Week 4: The Soul Star: This first energy center above the head is a significant portal for communing with your own Beautiful Soul, for calling forth higher frequencies of Divine Light & Information, and for communing with Higher Beings.

Healing Frequency: Arcturian Metatronic Spiritual Device. This frequency, that comes via both Archangel Metatron and the Arcturians, clears your Spiritual Body of energetic contracts, vows, and other disruptions to your receiving the Blessings, Guidance, and Support of your own beautiful Soul.

Week 5: Earth Star: This first energy center below the body is anchored in the Earth, and is invaluable in helping you to bring the high frequency energies and information that you receive into service at the level through which you live— physically and consciously, here on the Earth, in 3-D Reality.

Healing Frequencies: Arcturian Repatterning of Cells & Arcturian Regeneration of Cells. We are focusing this week on the physical realm, and this pair of frequencies work together to bring healing to the physical body.

LOGISTICS:

This class will meet via Zoom, on Thursday evenings.

We will not meet on Thanksgiving.

Host: The Center for Conscious Living

Dates: November 11 & 18, December 2, 9 & 16, 2021.

Time: 7-9:30pm EST; 4-6:30pm PST; 2-4:30pm HI

Investment: \$150

Please Note: *Before working with energy centers above and below the body, **For Your Physical Comfort & Well-Being**, it is important to first work with the energy centers within the body. For this reason I ask that you enroll in this class only if you have prior experience working with your 7 basic chakras that run through the central column within the body: The root/base chakra; the sacral/belly chakra; the solar plexus chakra; the heart chakra; the throat chakra; the third eye chakra and the crown chakra. Thank you.*

All classes are recorded; audio recordings and pdf illustrations provided.

I retain the right to all recordings and may use them to offer as recorded trainings in the future. Your enrollment indicates your consent to be included in these recordings. No last names or video are included in recordings.

Let's continue to enjoy this great landscape for Exploration~ your own magnificent subtle energy system!
