

West Wood Products Announces Acquisition of Decorative Panels International

July 8, 2024 — West Wood Products, a leading innovator in the wood products industry, is thrilled to announce its acquisition of Decorative Panels International (DPI). This strategic move enhances West Wood Products' portfolio, reinforcing its commitment to quality, sustainability, and innovation in the wood products market.

Expanding Horizons with DPI

Decorative Panels International, renowned for its high-quality and eco-friendly decorative panel solutions, will now operate under the West Wood Products umbrella. This acquisition enables West Wood Products to diversify its offerings, combining DPI's exceptional product range with West Wood's industry-leading standards and expertise.

Strengthening Market Position

"Acquiring DPI is a significant milestone for West Wood Products," said Golan Levy, CEO of West Wood Products. "This acquisition not only expands our product line but also aligns with our vision to lead in sustainable and innovative wood product solutions. DPI's reputation for excellence complements our mission to deliver superior products to our customers."

Industry Leader

With the addition of DPI's facilities, West Wood Products now operates four factories across North America, located in California, Texas, South Carolina, and now Ohio. This expansion solidifies West Wood Products' presence across the continent, ensuring a robust supply chain and enhanced service capabilities for customers in North America. With a total of nine rollcoat finishing lines across these plants, West Wood Products now boasts the largest rollcoat finishing capacity in North America, establishing a true national footprint.

About Decorative Panels International

Decorative Panels International ([decpanels.com](https://www.decpanels.com)) is the largest producer of wall panels in North America and also offers a range of pegboards. Known for its commitment to quality and sustainability, DPI produces a wide range of panels that are used in residential, commercial, and industrial applications. DPI is renowned for its eco-friendly manufacturing processes and innovative designs.

About West Wood Products
