

# New Charleston, SC Plant Now Operational

## West Wood Products Expands Operations to East Coast

**An industry leader in the production of prefinished panels, drawer sides and other components.**

In celebration of their 25 year anniversary, West Wood Products has opened their 3rd location right outside of Charleston, South Carolina! With its close proximity to a major port and its central location along the East Coast, West Wood Products is excited to have a true nationwide footprint.

The Charleston facility is 60,000 square feet with a state-of-the-art finishing line that is capable of finishing panels up to 5' wide and 12' long. The substrates available at this location include MDF, Particleboard, and Plywood.

Coming soon, they will offer prefinished panels, primed panels, drawer sides, drawer bottoms, and other components.
