Today, we have concrete proof of what many have long suspected - a weaponized justice system that is anything but just.

The actions of the court and its supporters are reminiscent of the actions of dictators and the "show trials" from the past.

How rare it is for anyone to be found guilty on all counts! All this from a justice system that refuses to indict Biden for retaining classified documents from his time as Vice President in his garage, citing "his bad memory."

Excuse after excuse, unless you are a conservative patriot. Those of you sitting on the sidelines, take heed, as this weaponized system will come for you eventually.

Today, they railroaded Trump in a show trial with a predetermined outcome.

This is a terrible day for America and the people's trust that any remnants of our once esteemed institutions remain.
